Harvard Online • [CS50's Web Development with Python and JavaScript](#)

*August 2023*

EF SET • [English Certificate 82/100 \(C2 Proficient\)](#)

### Web Development

Experienced with HTML/CSS/JS and frontend frameworks & libraries such as React, NextJS, and Svelte. Built projects with Python Django on the backend. My projects emphasize on proper semantic HTML, usability & accessibility, design principles, and SEO best practices.

---

## Other skills

### Graphic Design

Being experienced in tools like Adobe Illustrator and Photoshop, I can create both digital and print designs by utilizing my knowledge of composition, color, and typography in design. My previous design works include infographics, advertisement posters, brochures, menus, banners, business cards, and more.

### UI Design

I have experience with tools such as Adobe XD and Figma to create user interfaces for webpages and mobile applications with an emphasis on intuitiveness and ease of use.
